

JNE Welding is looking for a permanent, full-time Plasma Table Operator for our night shift. The Plasma Table Operator to produce a high quality product in a safe and efficient manner. This includes, but is not limited to, handling material (manual and with cranes or forklifts), finished parts clean up, identifying and storage of parts and unused materials. The operator will be required to ascend/descend stairs multiple times per shift, lift and carry small parts frequently, and be exposed to outside weather conditions occasionally.

- Working safely and in accordance with JNE procedures and OH&S regulations
- Visual and dimensional inspection of items cut referencing approved drawings, codes, specifications and tolerances
- Dimensional inspection specific to overall lengths, material size, depths and thickness, hole locations and sizes, weld locations, checking for square and parallel, appearance and workmanship
- Ensure proper identification and documentation of components prior to release
- Ensure all items are properly marked prior to release
- Operation of the overhead cranes to place plates on the table and remove parts
- Operation and daily maintenance of the Plasma and table.
- Other tasks as assigned

Preference will be shown to candidates who possess:

- Excellent verbal and written communication skills and strong interpersonal skills
- Experience with CNC cutting machines
- Understanding of computers
- Good problem solving skills
- 40 hour Crane Operator and Forklift tickets

JNE Welding offers a competitive wage and benefits package. If you're interested in this position and think it would be a good fit for your skills, please forward your resume and cover letter by August 6, 2019 to:
