

PROJECT MANAGER

At JNE Welding we strive to be one of the most diverse custom steel fabricators in Western Canada, to be an employer of choice – creating meaningful opportunities for Saskatchewan workers, and to be a partner of choice - creating win-win relationships with our suppliers and stakeholders. We are currently looking for a dynamic, self-motivated, team player for the position of **Project Manager**.

Responsibilities will include:

- Liaise between our customer and JNE to ensure their custom fabrication projects are completed to their expectations while maintaining schedule and budget.
- Determine priorities and set schedules for project completion. Monitor and adjust schedules to ensure project critical path is on track.
- Distribute project information to stakeholders.
- Identify, manage and mitigate project risks.
- Identify improvements in production, policy and procedures within JNE.
- Maintain positive and productive relationships with clients and team members.

The ideal candidate will have the following qualifications and experience:

- Excellent communication skills (verbal and written) including strong interpersonal skills and a good command of English;
- Strong problem solving skills;
- Strong coordination and organizational skills;
- Ability to work in fast paced environment with multiple deadlines;
- Steel Fabrication experience would be an asset;
- 3+ yrs Project Management experience or equal.

JNE offers a competitive wage and benefit package, fitness facility, challenging work, and a commitment to continuous improvement and excellence. We continue to build a strong team that has depth in both personal leadership skills as well as industry related training and experience.

Be part of a company with more than 38 years of industry experience that is helping to shape Saskatchewan and Western Canada!

To apply, please forward your resume to hr@jnewelding.com or fax to 306-242-0803.
