The primary responsibilities of this role will include:

- Responsible for working in accordance with OH&S regulations, JNE safe work procedures, ISO procedures, and JNE values/code of conduct
- Material handling of raw material and finished parts
- Responsible for reasonable control of raw material inventory
- Responsible use of consumables and finished parts
- Ability to interpret drawings
- Demonstrate proficiency in operating oxygen/acetylene torch, plasma torch, press, iron worker, band saw, shear, and drill or oxygen/acetylene torch, plasma torch, press, shear, drill, and brake
- Maintain equipment and report any required repairs
- Ensure appropriate equipment and rigging is utilized in area
- Ensure work is being completed to specifications and acceptable standards
- Maintain good housekeeping in area

### **The successful candidate will have the following qualifications and experience:**

- Grade 12 with advanced math
- 4–7 years of related experience
- Brake Press and Rolling experience
- 40 - hour crane training
- Capable of setting up jigs
- Good knowledge of material size, types, shapes, and grades
- Excellent attention to detail skills and accuracy
- Good interpersonal and communication skills
